Message from Chair

When we build community, we never need to do things alone. This rings true for our healthcare Foundation and the great things we have accomplished together for thirty-seven years. Our community of donors, sponsors, and healthcare professionals have worked together to empower the best in healthcare for High River and Nanton. The needs change from year-to-year, but the compassion and creativity remains steadfast.

The Annual Appeal is a way for us to raise money that helps address emerging needs for the hospital as well as healthcare clinics and units. If we can be agile and respond to needs, then the healthcare teams have less to worry about and more tools to offer the very best care.

On behalf of my fellow Directors on the Board and our staff, thank you for supporting this appeal. Your contribution goes a long way.

Aaron Mouser
Foundation Board Chair

Mission

The High River District Health Care Foundation provides our donors and volunteers with a means to support healthcare and wellness in our community.

Like us on

Responding
**TO EMERGENT
HEALTHCARE**
Needs

Supporting the:
High River Hospital
Nanton Community Health Centre
Silver Willow DSL Nanton
Community & Public Health Care

Your response means

we have critical funds throughout the year that allow administration, physicians, staff and the Foundation team to quickly respond to the most emergent needs.

We have been able to provide state-of-the-art equipment and support innovative programs right here in High River and Nanton because of you, our donors, who have chosen to partner with us.

- Providing enhanced patient care through the Patient and Family Centered Care initiatives
- Purchasing up to date equipment for the Hospital including: Acute Care, Occupational and Rehab Therapy, Maternity, Emergency and surgery
- Enhancing community care services such as Home Care, Public Health and Mental Health
- Making life more comfortable for residents of Long Term Care and Silver Willow DSL
- Updating equipment at the Nanton Community Health Clinic
- Investing in local staff through scholarships for skills upgrading and certification

Thanks to donors like you, we are able to answer the call, supporting the most current and emergent needs of our local healthcare team.

Along with our annual Dinner & Auction, Points of Light campaign and the longstanding Cattle & Grain Round Up, the Annual Appeal is an integral part of our financial support for healthcare every year. With your support in 2022 - 23, we invested \$312,500 into equipment and programs.

Did you know...

...that monthly giving is a convenient and effective way to support emerging needs for local healthcare? For as little as \$10/month (\$120 a year), you receive a tax benefit and we can provide small items such as a drumming class for Long Term Care residents or ten hot lunches for patients receiving chemotherapy in our Cancer Clinic.

Thank you, your response elevates our ability to respond quickly
